

***oelheld U.S., Inc.***

***Booth # 3803***

at Motion + Power Technology Expo

As a specialist for metalworking fluids and lubricants, oelheld will present the DiaGrind 535 series at Motion + Power Technology Expo > the all-rounder fluid from oelheld used for gear grinding, hobbing, honing and cutting.

DiaGrind is successfully in use by internationally operating automobile and transmission companies and does not require regeneration or complete exchange for many years, thanks to the blend of high-quality additives and superior base oils.

We are looking forward to connecting with everybody whose goal is to gear up for efficiency and to bank their savings. See you at booth # 3803!
